PROFILE

IT has always been my biggest interest. From an early age, I was involved with repairing computers, immersing myself in the world of internet of things and starting programming small web applications. When I came into contact with programming, I realized that I wanted to develop myself further in. That is why I chose to follow the front-end developer course at INTEC BRUSSELS. I am currently strengthening my knowledge of JavaScript, step by step I want to learn more languages.

SKILLS

- Cross platform design
 - HTML/JSX
 - CSS/SCSS
 - React.js/npm
